2. Test Series :

- A. **Monthly Test** – The monthly test enables students to track their progress efficiently and pay attention to the sections required.
- B. **Online Mock Test** – It is mandatory for all students to attempt the mock test after the completion of the syllabus. Each student gets a unique ID and password to attempt the mock test series. The mock test will get a complete performance analysis, All India Ranking, practice to the updated exam pattern and section-wise performance report.

3. Doubt clearance & Feedback sessions :

Students can attend a doubt clearance session with our expert by booking their slot at the nearest Pahal design centre or choose the online mode for the same.

4. **Digital Learning Program (DLP)** – Access to a digital learning platform which has a complete learning solution for the student. The platform will enable students to access video lectures, quiz practice sessions, anytime access to practice sets and tests with more than 5000+ questions. The student will be allotted a unique User ID and Password for their DLP account, which they log in to from Pahal Digital.com or the PD app.
5. **Expert Team:** Each student will get expert guidance for an architecture career and will be assisted for architecture colleges according to scores obtained in the respective exam. The team will also analyse and review the student's performance and help them to improve it.
